

BRIDGESTONE

VSWAS

V-STEEL
SNOW WEDGE
ALL SEASON

L-2, G-2

Designed for grader and loader applications, specially in very snowy conditions, providing excellent performance. It also performs well in year-round use and has design features that reduce stone holdings. Because VSWAS may be used year-round, seasonal change-outs are no longer necessary, helping to reduce operational costs.

GRADER

LOADER

SPECIALIZED FEATURES

1 DEEP SIPING

Helps provide excellent traction, even late in tread life, which contributes to better braking and handling on snow, sand and gravel

2 TIE BARS WITHIN THE SIPES

Control movement of the tread blocks for long, even wear while combating the retention and throwing of damaging stones

3 GROOVED BEVEL

Patent-pending grooves in lug walls enhance snow traction by shearing multiple layers of snow, not just the top layer

4 UNIQUE TREAD DESIGN

Wide grooves and angled lugs help reduce retention and throwing of damaging stones, while contributing to a comfortable ride

5 CUT RESISTANT COMPOUND

Reduces cutting, chipping and puncturing, extending the life of the tire
